Standard Supply		<p><b>1</b> Ensure nog is oversized to cope with variations in fixing hole spacing. As hole positions vary top to top due to production limitations it will be necessary to place the basin in position and mark through the holes in the top.</p> <p><b>2</b> If you increase or decrease height of vessel basin (ie dimension I) then F, G, H dimensions must be amended accordingly</p> <p><b>Note:</b> Waste outlet positioned for standard chrome bottletrap and pop-up basin waste.</p>
